

V.C.A.T.S.

Valley Computer And Telecommunications Society

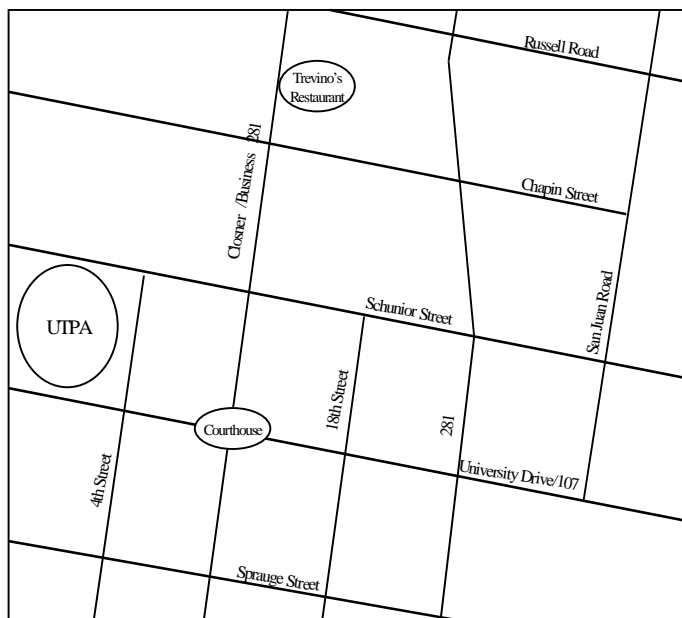

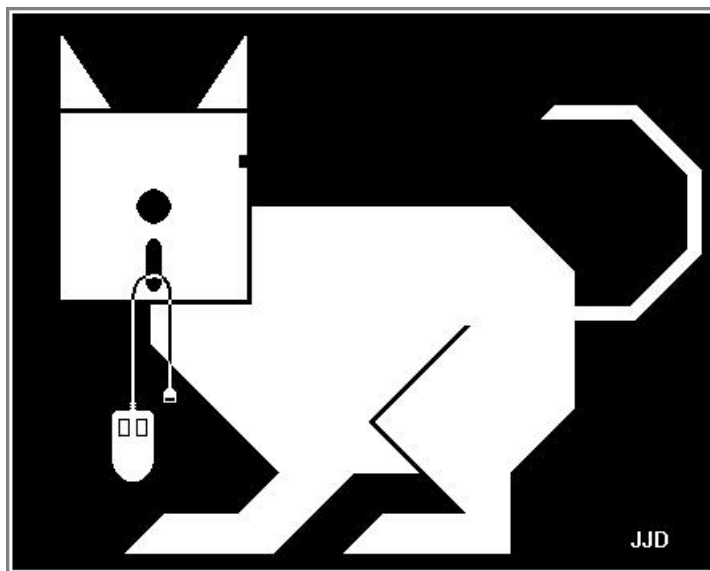

Are you interested in computers?

Would you like to sit down in a nice relaxed atmosphere with other people who are interested in computers?

If so, please feel free to join us at the next meeting of the Valley Computer and Telecommunications Society.

No membership requirements. No Dues.
Everyone and Anyone Welcome.

We have members from all age groups, walks of life, and levels of computer experience.

We meet at Trevino's Restaurant in Edinburg, in the back meeting room, every first Thursday of the Month at 6:30 PM. To get there follow the directions below with the map to the left.

If you are coming up the expressway, then we recommend that you exit at Schunior and head West until you hit Business 281. Then go North, and Trevino's is just past the traffic light on East Chapin Street.

If you are coming from North McAllen, you enter on Highway 107. If you don't know Edinburg, proceed to the center of town, where you can turn North of the courthouse and proceed from there to Trevino's. If you know the town fairly well, you may want to take Sugar Road North to Chapin Street, then head East to Business 281. Trevino's is less than a block North of there, as you can see on the map.
